

Call for Session Proposals

APTA Combined Sections Meeting

Feb. 4-7, 2027 | Philadelphia, Pennsylvania

The specialty academies and sections of the American Physical Therapy Association hereby issue a Call for Session Proposals.

Proposal submission deadline: April 15, 2026, 11:59 p.m. PT/2:59 a.m. ET

Proposals for APTA CSM educational sessions and preconference courses are submitted online through APTA's submission site. The decision to accept or reject a proposal, and matters regarding the final content, format, and scheduling of any presentation, rests with each academy/section as represented by that entity's program chair.

THE FOLLOWING INFORMATION IS SUBJECT TO CHANGE.

Proposal submissions for education sessions must contain the following:

- Title (15 words maximum).
- Session description (250 words maximum).
- Session learning objectives (four maximum).
- Minimum of five (5) to seven (7) bibliographic references that are most relevant to your work.
- Timed outline of content that aligns with learning objectives.
- Total content related to differential diagnosis (expressed in minutes).
- Speaker information, including name, degrees/credentials, institution, city, state, and speaking experience for each speaker.
- Biographical information for each speaker.
- Keywords to help potential attendees search for the session topic.
- Teaching and learning assessment methods.
- Recommended content level (fundamental, intermediate, advanced).
- Conflict of interest disclosure.

Failure to submit with any of the above components may result in your session being rejected.

Proposal submissions for preconference courses must contain the following:

- All the above pertaining to educational session submissions, plus:
- A commitment that, if selected, the submitter will provide a 25-question, multiple-choice posttest to assess learning. Each question must correspond with a learning objective. This learning assessment is required for approval of continuing education units. Posttest will be due in October 2026.

Important things to remember when submitting your proposal:

- **The same proposal may not be submitted to multiple sections.**
- The APTA academies/sections have agreed to limit a speaker to three accepted sessions. This includes both primary speaker and co-speaker positions.
- Speaker information will appear exactly as submitted in all APTA CSM publications. Contact co-presenters to ensure the accuracy of this information before finalizing your submission.
 - Proposals may be for 90-minute (1.5 hour) educational sessions or for one- or two-day eight hour per day preconference courses.
 - If you have content exceeding 90 minutes (1.5 hours) for an educational session, you may submit two 90-minute (1.5 hour) sessions, designating in the title that it is part 1 or part 2.
- Selection of proposals will be based on foundation in evidence, clarity of proposal, probable interest to participants, fiscal feasibility, and space and time constraints.

- Proposals should reflect cultural and/or ethical components related to clinical practice and research, as related to session content.
- Proposals should be devoid of any promotional content.
- Use your APTA member login to access the submission site and submit your proposal. If you do not have a member login, you can create one or [contact Member Success](#) at 800-999-2782.

Session recording:

At the time of submission, you will be asked if you would like to be considered for On Demand recording of your session. Should you choose to agree, the session will be recorded onsite at APTA CSM and then posted on the On Demand platform for at least two months after the in-person event.

- All speakers for the session must agree to be recorded.
- Speakers must submit a 10-question posttest by January 2027 and sign an On Demand agreement by November 2026.
- Sessions that are chosen for On Demand recordings will receive up to 4 speaker full CSM conference registrations, rather than 4 speaker daily registrations for non-recorded sessions.

Acceptance of speaker responsibilities:

If your proposal is selected for an educational session or preconference course, you will be asked to sign a form agreeing to speaker responsibilities. Please be mindful of deadlines related to your proposed sessions, as coordination for CSM requires careful planning and coordination.

- Every speaker or co-speaker must sign their speaker agreement(s) in their Speaker Center in Confex, if accepted for a session/course.
- You agree to meet all deadlines (deadline reminders will be sent to chairs); however, if you are unable to meet a deadline, you must notify the APTA Events Programming staff at eventprogram@apta.org with notification.
- Please include a reference to your academy/section and the title of your approved session or course in all communications to streamline processing by staff.

Speaker registration benefits:

If your proposal is accepted, speakers of that session may be eligible for registration benefits through APTA. More information will be communicated in your Confex Speaker Centers, and you will be reminded of what items will be needed throughout the planning process. Please read all of the information provided on this process before taking any registration actions. APTA will work with Spargo as the registration partner for APTA CSM 2027.

APTA Academy/Section Program Chairs (as of December 31, 2025)
